

August 29, 2019

Chris Venzin is a student page at the Greensburg Hempfield Area Library. He has been an employee for three years. Before he was a page, he was a volunteer and as soon as he was 16 years old, we hired him.

Chris is responsible, intelligent, confident, personable and an amazing employee. He takes the initiative and sees what needs accomplished before asked to do so.

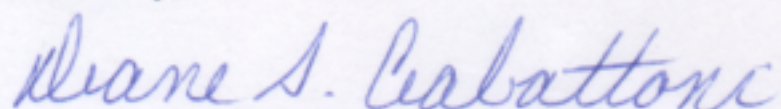

I have witnessed Chris in many different roles. I serve on the Hempfield Area School Board and was part of the board when Chris lead a group of high school students in a special presentation before the school board and the community. With students like Chris, we can be confident in our future generation.

Because of Chris' willingness to work and his attitude to help, he is a person who is requested to be part of many programs hosted by the library.

Chris has a unique gift of working with people and he can work either in a group or alone very well. His lighter side is evident in his appearances in the high school plays, his positive attitude and his sense of humor.

Chris is a special individual who will leave his mark on the Greensburg Hempfield Area Library. We are fortunate that he is a major part of the library.

Sincerely,

Diane S. Ciabattone, dedecib@comcast.net

Assistant to the Library Director
