To whom it may concern:

Through the course of the 2018-2019 academic year, I came to know Emma Toman as a student and lifelong learner in my 11th grade Advanced Placement English Language and Composition class. It is my pleasure to write this letter of recommendation on her behalf.

I observed Emma over the period of a year and have seen great potential in her. She is one of the finest students I have encountered in my career. Emma's superior reading skills and her analysis of various texts made her stand out amongst her peers. She often asked questions that proved she was a deep thinker and a well-rounded individual. Emma's essays and papers were exemplary and served as models for other students to emulate. While other students had to be prompted, Emma took on assignments with great enthusiasm and academic maturity.

Emma always participated in class discussions and had many insightful things to say. She often volunteered to be discussion leader in Socratic Seminars. Establishing herself as a leader, she posed thoughtful questions to her peers and displayed strong critical thinking skills. Moreover, she carried herself in a mature fashion and set an example for the other students in the class. Her participation in multiple extra-curricular activities such as German Club, Science Olympiad, Math League, and National Honor Society is also a testament to her hard work and dedication.

In summary, I highly recommend Emma Toman for admission into your University. I know she will be highly successful in her studies in the field of Biology. If you have any questions, please do not hesitate to contact me at (412) 885-7500.

Sincerely,

Ann Watson
