To Whom It May Concern:

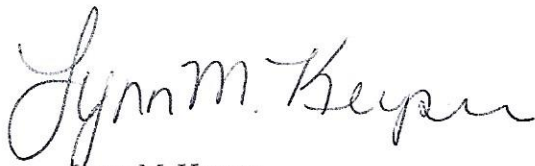

Lauren Sigut is a paramount example of an exemplary student as well as an exemplary individual. Her classroom performance within my Physics I and AP Physics classes illustrates her strong intellectual ability, her motivation to learn, and her dedication to achieve excellence. She demonstrates the characteristics of a truly outstanding scholar and an outstanding individual. I am pleased to provide a letter of recommendation for such a worthy candidate eligible for your scholarship.

Within the classroom, Lauren Sigut displays actions that provide evidence of her intense desire to learn and immense motivation to achieve personal growth. She is an exquisite student. Patience, dedication, and intelligence are just a few of Lauren's remarkable characteristics that have enabled her not only to be successful within my classroom, but also to be a top performing physics student. Lauren possesses the uncanny ability to solve extremely difficult abstract and deductive reasoning problems. On numerous occasions Lauren has provided supplemental information to class discussions through individualized research. She has solved challenging problems on her own free will, and performed voluntary investigations of physics concepts outside of the classroom environment. Additionally, Lauren is extremely motivated to learn and to achieve success. Lauren Sigut measures academic success not by extrinsic rewards but by the intrinsic sense of self-enrichment and self-fulfillment.

In addition to being an outstanding student, Lauren Sigut is an admirable individual. Through her cooperative and helpful nature, compassionate demeanor, and responsible personality, Lauren is a role model both within and outside the classroom setting. This positive example is evident through her participation in numerous community and school activities. As a faculty member, I can personally attest to Lauren's dedication and concern for others. Lauren sets a positive example for other students to follow and leads by example. Thus, she is a well-rounded, responsible, considerate, and mature young woman willing to face new challenges.

I enthusiastically recommend Lauren Sigut for your scholarship. In my opinion, she would be a superior candidate for this prestigious award. Please do not hesitate to contact me if there are any questions or concerns regarding your deliberations upon her candidacy.

Sincerely,

Lynn M. Keyser

Greater Latrobe H.S. Physics Teacher
