MARY BETH LEEMAN
Principal

DAVID WOODS
Assistant Principal

To whom it may concern,

It is with great pleasure that I am writing to recommend Cameron Pagley for your school. I have had the opportunity to get to know Cameron over the previous few years as a student in my honors chemistry and advanced chemistry class at Beaver Falls High School. He has shown a hard work ethic and a great interest in his academic progress, especially regarding the science fields.

In the time I have known him, Cameron has made a great impression. He is a privilege to have in class. He has proven to be a leader in his class and has set an example for the rest of the students to follow both in and out of the classroom. Based upon his academic performance, attendance in my class, and participation he has shown to be a superior student.

Along with excelling in the classroom Cameron has also been very active with extracurricular activities. He is involved with many different clubs and organizations within the school. To highlight a few, he has been on student council for four years, a member of the stem club for two, and a member of the science club for two, one of which as the president of the club. Cameron has a number of academic achievements including being named the 2019 Bausch and Lomb honorary science award winner. He also volunteers for multiple activities both in and out of the school.

I strongly recommend Cameron. Based on his performance and attitude in my class I know he will be a positive and successful addition for you. If you need any additional information regarding Cameron feel free to contact me any time at Beaver Falls High School by calling 724-843-7470 ext. 1750, or by email nypaverm@tigerweb.org.

Sincerely,

Michael Nypaver
Science Teacher
Beaver Falls High School
