March 11, 2019

To Whom It May Concern:

It is with great enthusiasm I recommend Hailey Kopp for this scholarship opportunity. Hailey is truly an outstanding young person whom I have had the pleasure of teaching over the past three years in my Preschool Education courses. Over the course of her junior and senior year, she has emerged as a leader among her peers and is well respected by the underclassmen.

During her high school career, Hailey participates as a team member to create and implement lesson plans for young children in the "Lil' Gators Preschool Education Program". She is a valuable member of her team offering leadership and experience to the younger students. Hailey also comes down during her study halls to help out whenever needed.

Hailey is hardworking, determined and compassionate. I count these qualities as her greatest strengths. She is someone I would expect to have high goals and also be able to achieve them.

Sincerely,

Tracy A. Ricciardi
