

I am delighted to be able to provide a reference for Tyler Funk, an outstanding young citizen as an active volunteer for the American Cancer Society Relay For Life of Norwin as the Youth Ambassador. I had had the honor of watching Tyler work tirelessly within the Norwin School District and the Norwin Community not only raising donations for our organization but being the voice to advocate to his peers about cancer awareness. I am proud and honored to be a part of this young man's journey.

Tyler's dedication to his personally initiated community group, "The Purple Fighters" is amazing. Tyler always finds the time for the Relay For Life of Norwin despite being involved in the Norwin Band & being involved in the dual enrollment program at the Norwin High School. Tyler attends all the monthly meetings and provides updates on his community events and fundraisers. Tyler has raised over \$30,000 for cancer research.

When a youth such as Tyler steps up above and beyond it's a wonderful occasion to be held. I have watched Tyler and his Purple Fighters stay the course and continue youth and community engagement true to his word in spreading awareness about cancer to our schools and community.

Tyler is a motivated youth leader and a dedicated member of the Relay For Life of Norwin. Tyler will succeed in whatever endeavor he chooses and undoubtedly will have a positive impact of the lives around him.

Together in The Fight
